

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The select committee, to whom was referred the subject of the arrest of Mr. Strang, the member from Newaygo, by the under sheriff of Wayne county, through their chairman, Mr. Mitchell, submitted the following report:

The select committee, to whom was referred the petition of C. W. Tuttle, asking leave to arrest James J. Strang, a member of this House, and to whom was also referred a resolution in regard to such arrest, beg leave to submit the following report :

Your committee have had the matters referred to them under consideration, and find the facts, so far as they can ascertain them, to be, that in June, 1852, an indictment was found against said member for an alleged rescue of a criminal from the custody of an officer; that immediately following the indictment, the member was arrested and kept in custody for some time, and was then set at large. That after that, he was almost continually within the jurisdiction of the court where such indictment was pending, doing business in a public capacity, and frequently meeting the sheriff who had previously had him under arrest, and to the knowledge of the proper prosecuting officers. That he was elected to his seat in this House after such indictment was found, and that the charges against him were known to his constituents. That no further effort to arrest him was made until he was about to assume his duties as a member of this House, and after he was entitled to his privileges from arrest as such member. That the writ was put into the hands of the petitioner on Monday last, with directions to make the arrest on the morning of the meeting of the Legislature. That in pursuance of such directions, the arrest was then made, and was afterwards released to obtain the assent of this House in answer to the prayer of the petitioner. That the petitioner did not intend to infringe upon the privileges of this House, but acted under instructions, and, as he supposed, in the discharge of his duty as an officer.

The facts so far as we can learn them, warrant the conclusion that the arrest was not attempted with a view to the furtherance of justice, nor to prevent an escape, but with the intent to accomplish some unworthy purpose, and to deprive the constituency of said member, and this House, of his services. That if there was any propriety in the first instance in this prosecution, the long rest it has been permitted to take, the carelessness and indifference of the officers having the matter in charge during so long a period, forbid the presumption that it is now for the attainment of justice that it should be suddenly revived at this peculiar juncture, when the member is just assuming

the duties which his constituency have assigned him, with a full knowledge of all the facts charged against him.

Your committee, with the full sense that the due administration of justice should be free from all check or restraint, earnestly hope that any attempt to turn the just and necessary process of law into an engine of oppression or persecution will be promptly met and rebuked, and most especially when such an attempt infringes upon any of the privileges of a member of this House. Your committee deem the arrest under consideration to be a violation of right, in contravention of law, and an attempt to revive against a member of this House a prosecution that he long since had good reason to believe dropped and abandoned.

In connection herewith, the committee submit a statement of Mr. Strang, marked "A," and in conclusion, in view of the facts and circumstances presented to them, recommend the adoption of the following resolution as a substitute for the one referred, and ask to be discharged from the further consideration of the subject.

All of which is respectfully submitted,

WM. T. MITCHELL,
E. G. MORTON,
C. C. ELLSWORTH,
J. SEYMOUR,
B. P. HUDSON.

Resolved, That this House deems the attempted arrest of Jas. J. Strang, one of its members; an infraction of its privileges, and therefore denies the prayer of the petitioner.

The report was accepted and the committee discharged.

The committee on elections, to whom was referred the petition of J. G. Sutherland, asking a seat in this House, in the place of Hon. A. M. Hoyt, respectfully beg leave to report:

That on the second day of November last, Mr. Hoyt was in fact, and to all intents and purposes, a postmaster, acting under the authority of the government of the United States, he having control of said office. It was contended before the committee, on the part of Mr. Hoyt, that he had resigned said office before the second day of November, (the day of election,) and therefore he was eligible. The facts, as they appeared before the committee, are these: Mr. Hoyt, on the 30th day of October, forwarded his resignation to the proper department, but it could not have been received by said department, until some days after the election, and was not acted upon until the eleventh day of November, nine days after the election.

Art. 4, sec. 6, of the constitution, declares that "no person holding any office under the United States, (or of this State,) or any county office, except notaries public, officers of the militia, and officers elected by townships, shall be eligible to, or have a seat in either House of the Legislature; and all votes given for any such person shall be void."

The committee have arrived at the conclusion that all votes cast for Mr. Hoyt, while holding the office of postmaster, were absolutely void, and therefore recommend the passage of the following resolution:

Resolved, That J. G. Sutherland has been duly elected, and is entitled to a seat in this House, as a Representative from the county of Saginaw.

REPORTS OF STANDING COMMITTEES.

Mr. Marsh, from the committee on engrossment and enrollment; reported as correctly enrolled, signed, and this day presented to the Governor for approval,

An act to amend section 6, chapter 170 of the R. S. of 1846.

Mr. Chittenden, from committee on elections, submitted the following report from the majority of said committee:

The committee to whom was referred the petition of James Barton, contesting the seat of James J. Strang, beg leave to submit the following report:

It appears from facts admitted, and evidence adduced before the committee, that the vote, as canvassed for representative in Newaygo and Oceana counties proper, was as follows, viz:

For James Barton.....	52
Harvey W. Henry.....	45
William S. Utley.....	49
Abram S. Wadsworth.....	49
W. S. Utley.....	2
H. W. Henry.....	1
Sidney Utley.....	1
Scattering.....	2

And that the township of Peaine, usually called Beaver Islands, in Lake Michigan, cast 165 votes for James J. Strang for representative, the return of which votes was made to the county seat of Mackinac county, and from thence certified to the canvassers of Newaygo district, and were by them received and canvassed; and thereupon Mr. Strang was declared duly elected, and the certificate of election awarded to him.

Mr. Taylor, on behalf of contestant, and Mr. Strang, in person, appeared before the committee, and submitted their points of argument in the case.

Contestant claims first: That the township of Peaine (Beaver Islands) forms no part of the territory attached to the counties of Newaygo and Oceana, for representative purposes, under act No. 167 of 1851, being "an act to apportion anew the representatives among the several counties and districts of this State."

2d. That by article 19, section 1, of the revised constitution, the township of Peaine (Beaver Islands) is included in the separate judicial district denominated the Upper Peninsula; and by section four of the same article, said judicial district is entitled to three Representatives, and no more, under the apportionment of 1851; and so much of any act as increases the representation of that judicial district beyond three members of the House of Representatives is absolutely void.

3d. That James Barton received the highest number of votes for Representative in said district, and is entitled to the seat now occupied by Mr. Strang.

Mr. Strang controverts these propositions and claims that the township of Peaine (Beaver Islands) is an integral part of the county of Emmet; which county, by the apportionment act of 1851, is included in the Newaygo and Ocsana district.

2d. That the Legislature had full power to detach any portion of the district called the Upper Peninsula, and attach it to any other district for Representative purposes, and the act of 1851, so doing, does not conflict with sections 1 and 4 of article 19 of the constitution.

3d. That he (Strang) having received the highest number of votes in said district is entitled to retain the seat he now holds.

In regard to the first point, the undersigned, a majority of the committee, do not find any law which expressly attaches Beaver Island to the county of Emmet, or which includes or defines them as included within the boundaries of Emmet county proper, and they cannot come to the conclusion that they are so made a part of that county by implication.

In regard to the second point, the undersigned are clearly of the opinion that Beaver Island was included by section 1, article 19 of the revised constitution in the judicial district described as the Upper Peninsula, and that the plain meaning of section 4, of the same article, is that such judicial district should, under the apportionment of 1851, be entitled to but three representatives until another enumeration should show that their increase in population entitle them to more.

By the census of 1840, the population of that portion of the State denominated the Upper Peninsula is as follows:

Chippewa,.....	898
Houghton,.....	708
Mackinaw,.....	3597
Marquette,.....	136
Ontonagon,.....	389
Schoolcraft,.....	16
Total,.....	<hr/> 5744

The ratio fixed by the apportionment act of 1851, is for each Representative a population of 6200, so the idea is preposterous, that there was such an increase of population contemplated by the constitution as to entitle that district to more than three Representatives.

It is therefore the opinion of your committee, that so much of the apportionment act as attaches any portion of the judicial district to other districts for representative purposes is void.

The undersigned consequently conclude that James J. Strang is not the legally elected Representative for the Newaygo district ; and as it appears by the returns, that James Barton, the contestant, received the highest number of votes cast in said district, if the Beaver Islands are excluded, he is the legally elected Representative for that district, and is justly entitled to the seat now occupied by James J. Strang, and the undersigned recommend the passage of the following resolution :

Resolved, That James Barton is entitled to a seat in this house for the Newaygo and Oceana district.

D. W. SHOEMAKER,
WM. P. ARNOLD,
NELSON GREEN.

Also, the following minority report :

A minority of the committee on elections, to whom was referred the petition of James Barton, Esq., claiming the seat occupied by the Hon. James J. Strang, submit the following report :

That from the papers referred to the committee, it appears that the petitioner received fifty-four votes, and that James J. Strang, Esq., received one hundred and sixty-five votes, and that these votes were cast in the district as organized by the act entitled an act to apportion anew the representatives among the several counties and districts of this State, approved January 20, 1851.

It is contended on the behalf of the petition, that this act is void so far as relates to Emmett and twenty-one other counties embraced in said representative district, in consequence of the provisions contained in the first and fourth sections of article nineteen of the revised constitution.

The committee are of the opinion that the Beaver Islands are embraced within the boundaries of the county of Emmett, by virtue of the acts of 1840 and 1843, organizing Tonadegonia county, and changing its name to Emmett county, (Session Laws, 1840, 199, section 28; also, Laws of 1843, 146, section 15.)

The committee are also of the opinion that the constitutional provisions above referred to were intended only to embrace the Upper Peninsula, and the contiguous Islands, and they regard the act apportioning the representatives among the counties and districts of the State, as a legislative construction, which should not be departed from or disturbed in a merely doubtful case, or upon slight grounds.

The committee therefore recommend the adoption of the following resolution :

Resolved, That the petitioner have leave to withdraw his petition.

Signed,

WM. F. CHITTENDEN,

H. N. LATHROP.

The reports were accepted and the committee discharged.

Mr. Parkhurst moved that the reports be laid on the table and ordered printed ;

Pending the question on which,

The committee on public lands have had the petition of D. S. The report was accepted, the committee discharged, and the bill, entitled

The committee on towns and counties, to whom was referred the petition of Frederick Schilling, and many others, residents of Seba-wing, a German settlement in the county of Huron, and that portion thereof lying on Saginaw Bay and adjoining Tuscola county, stating that said settlement numbers 160 inhabitants; that they are 120 miles from Lexington, the county seat of Sanilac county, to which they are attached for judicial and representative purposes, and only twenty-five miles from the county seat of Tuscola county; that on account of the great distance to Lexington aforesaid, they have never organized any township, or enjoyed the privileges of citizenship since their location at said settlement, and therefore pray that they may be attached with that portion of Huron county occupied by them, to wit: Townships 15 and 16 north of range 9 east, from said county of Sanilac, and united with township 15 north of range 8 east, and organized into a township, to be known and designated as the township of Auchville, and permanently attached to the said county of Tuscola, for all purposes whatsoever.

Mr. Morton, from the same committee, submitted the following report :

The committee of ways and means have had under consideration

A bill to provide for assessing property at its true value, and for levying and collecting taxes thereon.

The object of the bill is to consolidate the tax laws of the State in one act, and the introduction of several amendments to our present tax system. The most important among the changes proposed, the committee mention :

1st. The listing of all real and personal property under oath, that the supervisors may assess the same at its cash value. While this system of taxation cannot increase the amount of taxes, it will show that the aggregate property of the State is over \$100,000,000, instead of some \$30,000,000, as now returned ; and that our taxes, where property is assessed at its real value, are less than in any other of the Western States. It is believed also, that the change proposed will make the burdens of taxation fall more equally upon the property holders of the State.

2d. Providing for the collection of non-resident taxes one year sooner than at present, and to make more perfect and valid, after a term of years, the titles acquired under the State ; and

3d. Providing for a change in the present manner of assessing and disposing of State tax lands.

The committee believe many of the changes proposed to be of great importance, and earnestly recommend them, as well as the consolidation of all our tax laws in one act.

The report was accepted, the committee discharged, the bill read a first and second time, and referred to the committee of the whole and placed on the general order.

The bill was referred to the committee of the whole and placed on the general order.

Mr. Ellsworth, from the committee on the organization of towns and counties, submitted the following report:

Your committee have had under consideration

A bill to organize the county of Cheboygan,

And respectfully report the same back to the House, as corrected, and recommend its passage.

They have also had under consideration the petition of R. P. Mason and others, citizens of the township of Northampton, in the county of Saginaw, praying that the name of said township may be changed to Chessening, beg leave to report that they are of the opinion that the prayer of the petitioners should be granted, and therefore report the same back to the House, accompanied with a bill, and recommend its passage.

They have also had under consideration a resolution of the House, instructing said committee to inquire into the propriety of bringing in a bill to abolish the office of County Auditors in the county of Wayne, and to transfer the duties of that office to the board of supervisors of said county, respectfully report that there having been no reasons assigned to your committee why said office

Mr. Ellsworth, from the same committee, also submitted the following report:

The committee on towns and counties, to whom was referred a resolution from the House, instructing them to bring in a bill defining the law relative to the number of school inspectors in the several townships in this State, through their chairman, most respectfully report that they have had the matter referred to them, under consideration; that article eleven, paragraph one of the new constitution, provides that there shall be elected annually in the several townships, among other officers, one township clerk, who shall be ex-officio school inspector, and also one school inspector; that after careful investigation and mature consideration of the new constitution, and the present laws relative to school inspectors, they have unanimously come to the conclusion that the laws now in force, were not repugnant to the new constitution in that respect, and that they will remain in force until repealed or altered by the Legislature.

Your committee are inclined to the opinion that the framers of the constitution contemplated and intended that the term of office of the school inspector should be one year, in lieu of two, as at present, therefore making but two inspectors instead of three; that the duties devolving upon such inspectors are not unfrequently of great importance, involving the rights, interest and peace of whole communities; that the number of three, in the opinion of your committee, for a board of school inspectors, is much better calculated to subserve the interests of those for whom they act, and arrive at just conclusions and proper decisions, and with less difficulty, than two; in which case should there be a disagreement, there would be no possible way of obtaining a decision; that they seriously doubt the

propriety of the introduction of the provision referred to, into the constitution. They therefore hereby report said resolution back to the House, move that it be laid on the table, the constitution stricken out, and the committee discharged.

The report was accepted, the committee discharged, and the resolution ordered laid on the table.

REPORTS.

Mr. Marsh, from the committee on engrossment and enrollment, reported as correctly enrolled, signed, and this day presented to the Governor for approval,

An act to extend the time for the collection and return of taxes, in the towns of Campbell and Sebewa, in the county of Ionia, for the year 1852 and for other purposes; also,

Joint resolution relative to the supreme court, to be held in Lansing.

Mr. Morton, from committee of ways and means, submitted the following report:

The committee of ways and means have had under consideration,

A bill further to amend an act entitled an act relative to plank roads, approved March 13, 1848.

The bill proposes to change the present law, by requiring plank road companies to make an annual report to the Auditor General instead of the Secretary of State; and in addition to the returns now required by section 9, of the general law of 1848, to report the actual nett profits of their roads for the preceding year, that taxes may be levied upon such profits, and not as now, upon the amount of capital invested. Many of our plank roads do not pay any profit to the stockholders, but are made, merely as works of enterprise, to invite settlement and develop the agricultural advantages and resources of new sections of the country; and should not be taxed like roads

over our principal thoroughfares paying 20 to 30 per cent. The bill proposes to remedy this evil, which, if continued may prevent the construction of roads in new sections where they are most needed. The committee therefore recommend its passage, and ask to be discharged from its further consideration.

The report was accepted and the committee discharged.

And on motion of Mr. Ransom,

The bill was referred to the judiciary committee.

Mr. Morton, from the same committee, submitted the following report:

The committee of ways and means, who were instructed to inquire into the situation of the claim against A. St. Amand, absconding treasurer of Genessee county, respectfully report, that they find that said treasurer is in default to the State about the sum of twenty-five hundred dollars; that the Auditor General has caused legal proceedings to be instituted against him, and by virtue of said proceedings a considerable amount of property has been attached. The committee also find that most of the property attached is encumbered by mortgages, and the security to the State under such attachment is contingent upon the removal of said incumbrances or the value of the property over and above the amount of such mortgages. It appears also, that no judgment has been obtained in said suit, and as your committee believe that it may be for the interest of the State to save the expense of litigation, and to settle and adjust said claim on fair terms, and as such adjustment can be better effected through the agency of the Auditor General than by legislative investigation, they respectfully report the accompanying joint resolution, and ask to be discharged from further consideration of the subject.

The report was accepted, the committee discharged, and the joint resolution entitled

A joint resolution relative to the claim of the State against A. St. Amand, late treasurer of Genessee county,

Was read a first and second time, and laid over one day under the rule.

Joint resolution relative to the erection of certain light houses on Lakes Superior and Michigan.

Mr. Ransom, from the judiciary committee, submitted the following report:

The committee on the judiciary beg leave to report the accompanying bill relative to the bonds deposited by banks in the treasury of this State, and recommend its passage.

The report was accepted and the committee discharged, the bill twice read, referred to the committee of the whole and placed on the general order.

Mr. Ellsworth, from the committee on towns and counties, submitted the following report:

The committee on towns and counties, to whom was referred

A bill to set off from the county of Kent, towns nine and ten, north of range nine west, and annex the same to the county of Montcalm,

Have had the same under consideration, and respectfully report that a large majority of the inhabitants in said towns, as appears from the petitions presented to your committee, are desirous of being

annexed to Montcalm county, for the following, among other reasons: that they are from thirty to thirty-five miles from Grand Rapids, the county seat of Kent county, and only five to ten miles from the county seat of Montcalm county; that they necessarily transact a good part of their ordinary business at Greenville, the county seat of Montcalm county.

Your committee, therefore, in view of the facts aforesaid, and that the county of Kent is larger by one-half than ordinary sized counties, feeling that it is no more than justice that the prayer of the petitioners should be granted, report the bill back to the House, recommend its passage, and ask to be discharged from its further consideration.

The report was accepted and the committee discharged, the bill referred to the committee of the whole and placed on the general order.

The committee on towns and counties, to whom was also referred

A bill to organize the township of Drummond,

Have had the same under consideration, and see no reason why it should not pass; they therefore report it back to the House, recommend its passage, and ask to be discharged.

The report was accepted and the committee discharged, the bill read a first and second time, referred to the committee of the whole and placed on the general order.

Mr. Mitchell, from the judiciary committee, submitted the following report:

The committee on the judiciary have had under consideration, two bills amendatory of an act relative to plank roads, have made several amendments thereto, and consolidated the two acts into one, respectfully report the same back to the House, recommend its passage, and ask to be discharged.

The report was accepted, the committee discharged, the bill referred to the committee of the whole and placed on the general order.

Mr. Parkhurst, from the committee on federal relations, submitted the following report:

The committee on federal relations, to whom was referred resolutions of the States of Connecticut and New Jersey, in relation to the compromise measures, and of the State of Indiana, on the subject of the slave trade, and for the purposes of colonization, respectfully report, that in the opinion of the committee, the laws passed by Congress, and included in those called the compromise measures, are of a character which, under our National constitution, every good citizen is bound to sustain; that the violence of sectional strife was thereby assuaged, and those institutions to which we point with feelings of pride and satisfaction, as landmarks to the friends of liberty throughout the globe, were thereby saved from destruction; that in the support of those measures, we are simply sustaining the compact made by the framers of the constitution; doing as citizens, only the duty we owe to the constitution and the laws framed to carry out its provisions; preserving the integrity of the Union and the independent sovereignty of the several States, and guaranteeing to every section of our common country, protection in the rights enjoyed by its citizens under the original charter of our independence.

The committee believe that the government of the United States is sustained by moral force; that its high mission is only to be fulfilled by the strength of the popular will; that around the safeguards and compromises of the constitution, States, as such, and the citizens of all the States of the Union, should rally with their united strength; and that to carry out this object, and to promote the common good of our country, and of our whole country, the resolutions referred to were passed by the Legislatures of the States named; those resolutions are cordially approved by the committee, and it is believed will meet with the sanction of this House.

The committee also concur in the sentiments expressed in the resolutions of Indiana relative to the slave trade and colonization, believing that no better or surer mode of ameliorating the condition of free blacks, and obviating the unpleasant consequences which must arise from their remaining among us, can be devised than to aid in their removal to the African coast, and in the speedy establishment and continuance of republican forms of government among them in that region. To carry out the design and object of the reference, the committee beg leave to report the accompanying joint resolutions,

recommending their adoption, and ask to be discharged from the further consideration of the subject.

The report was accepted, the committee discharged, and the joint resolutions severally ordered laid over one day under the rule.

Mr. Poppleton, from the select committee on the Maine liquor law, submitted the following report :

The select committee to whom has been referred the numerous petitions in favor of a law similar to the Maine liquor law, so called, have had the same under consideration, and submit the following report :

In view of the enormous consumption, and of the wide-spread and increasing evil in consequence of the too free use of spirituous or intoxicating liquors as a beverage, beg leave to submit the following reasons, which have governed them in their conclusions and decisions, touching the whole question of a prohibitory law.

The necessity for the use of spirituous liquors, for medicinal and mechanical purposes, will not be denied, but they are indispensable for those purposes. Here the necessity of the case must cease.

That the use of alcoholic drinks, as a beverage, is deleterious to all, must be evident to the great mass of the people of this State. Of this there cannot be a doubt.

The certain and evident devastation throughout the land in consequence of the lavish use of intoxicating beverages, (not only in our own beautiful Peninsula, but in all parts of our beloved country,) calls for some very stringent and summary measures, to prevent this accursed evil, destined, if not checked, to corrupt and debase the morals of society to an alarming extent.

The evil complained of is not only doing immense harm to the present generation, but the example set before those coming after us, must and will exert a very great influence upon those who it should be our first and imperative duty to guard with much jealousy. It is indisputable that individual rights must be surrendered for the public good and benefit ; that the minority must submit to the will of the majority when constitutionally expressed. That we have an undoubted right to prohibit the manufacture and sale of any poisonous de-

coction, or substance, calculated to enter into general consumption, the too free use of which would surely but slowly terminate life.

Your committee, in view of the unexampled and unanimous desire of the people, as expressed by the unprecedented amount and extent of petitions which have been presented to this Legislature, are fully persuaded that the evil complained of demands the passage of some prohibitory law for the suppression of the manufacture and sale of intoxicating or alcoholic drinks.

The strongest arguments which can be presented for prompt and decisive action by this Legislature, are the enormous array of names here presented by the petitions, being the astonishing number of about seventy thousand, and at this early day of the session of the Legislature.

Herewith your committee ask leave to submit a bill, having for its object the end sought by the petitioners, and recommend its passage.

The report was accepted, the committee discharged, the bill twice read, when

Mr. Gregory moved to lay the same on the table.

Lost.

The bill entitled a bill for the suppression of the manufacture and sale of spirituous liquors,

Was then referred to committee of the whole and placed on the general order.

The banks should not have the entire control in fixing the amount to be paid. I am informed by the State Treasurer that the Government Stock Bank has paid its tax for the past year, in conformity with the principles of the message, and why should not the others ?

The surplus in the treasury is large and increasing. It is now deposited in banks ; and if the practice is to be continued, ample security, in my judgment, should be required for its prompt payment.

I am prepared to nominate to a joint convention of both branches of the Legislature, an Adjutant General.

R. McCLELLAND.

Mr. Ewing moved that it be laid on the table and 500 copies ordered printed.

Mr. Warner moved that 480 only, be printed ; when

On motion of Mr. Mitchell,

The message was ordered laid on the table and printed.

REPORTS.

Mr. Parkhurst, from committee on banks and incorporations, submitted the following report:

The committee on banks and incorporations, to whom was referred a bill to amend section 27 of an act to provide for the formation of companies to construct plank roads, passed April 8, 1851, have had the same under consideration and report the same back and recommend its passage and ask to be discharged from the further consideration of the subject.

The report was accepted and the committee discharged.

The bill was read a first and second time and referred to the committee of the whole and placed on the general order.

Mr. H. Miller, from the committee of ways and means, submitted the following report:

The committee of ways and means, to whom was referred a bill directing the Auditor General to credit the county of Monroe with certain delinquent taxes, have considered the same, and report that the Legislature of 1847 passed a law to provide for draining swamps, marshes and other low lands, which require delinquent taxes, accruing under it, to be returned to the Auditor General like other taxes, pursuant to the revised statutes. Taxes under this law were so re-

turned by the county of Monroe, in strict accordance with its provisions ; and such returns were received at the Auditor General's Office March 19, 1848, when it was the duty of the Auditor General to credit the same to the county of Monroe ; but this duty was neglected, and on the 3d of April following, after the returns were made in pursuance of law, an amendatory act was passed, by which the Auditor General was instructed not to credit counties with such tax returns, which amendment would have no reference to returns made in pursuance of the law of 1847, before its amendment.

This bill requires the Auditor General to carry out the provisions of the law of 1847, obligatory upon the State, by crediting the county with the returns, which the predecessor of the present Auditor General neglected to do ; and in consequence of which the State and county have conflicting difficulties, making it impossible for the State to give a good tax title. The committee believe the State should credit the county, in pursuance of the State law of '47, requiring such returns, thus doing away the difficulty under which the State is placed, and enabling the State to sell the lands for the taxes due. The amount must eventually, as the lands are sold, return to the State. The committee therefore report the bill back to the House, recommend its passage, and ask to be discharged from its further consideration.

The report was accepted and the committee discharged, and the bill referred to committee of the whole and placed on the general order.

Mr. Mitchell, from the committee on education, reported

A bill to amend section 22 of chapter 58 of the revised statutes of 1846.

The report was accepted, the committee discharged, the bill referred to committee of the whole and placed on the general order.

Mr. Parkhurst, from the committee on federal relations, submitted the following report:

The committee on federal relations, to whom was referred joint resolution for donating lands to the landless out of the public domain, have had the same under consideration, and have instructed me as their chairman, to report the same back, recommend its passage, and ask to be discharged from the further consideration thereof.

The report was accepted, the committee discharged, the joint resolution referred to committee of the whole and placed on the general order.

Mr. Traver, from the committee on roads and bridges, submitted the following report:

Your committee to whom was referred the petition of Milfred Eldred and others, praying for the discontinuance of a certain road in the township of Martin, in Allegan county, have had the same under consideration, beg leave to report the accompanying bill, and ask to be discharged from the further consideration of the same.

An act to amend an act entitled an act to provide for holding terms of the district court in the Upper Peninsula, approved June 28, 1851; also,

An act to provide for the payment of the expenses of the State government; also,

An act to amend section 1, chapter 48, title 9 of the revised statutes of 1846.

Mr. Sutherland, from special committee on the subject of authorizing the county of Saginaw to loan its bonds for the construction of a road, submitted the following report:

The committee to which was referred

A bill to authorize the county of Saginaw to loan its bonds to aid in the construction of a plank road,

Have had the same under consideration, a portion of the committee not active, and submit the following report:

It appears to your committee that the Saginaw and Bad River plank road company, to which the bill would authorize said county to loan its credit, propose to build a plank road from the county seat of said county, in a south-west direction, to the forks of Bad River, a distance of fifteen miles.

That there is not as yet, any road passable at all seasons on this route—that a large portion of the inhabitants of that county would be accommodated by such a road—that it is therefore of the greatest importance to the county at large, and may be regarded, not as a local benefit, but a county improvement, for which the statute authorizes the county to aid by appropriations to a limited extent. There is in the direction in which this road is proposed to be constructed, a large district of country, embracing not only a large portion of Saginaw county, but also of Clinton and Shiawassee counties, lying so contiguous that important settlements there located, and now remote from any of the thoroughfares of the State, will most naturally seek an outlet for their produce through this channel. That said company is now organizing, and includes among its stockholders, many residents of the county possessing property and character.

That if the board of Supervisors of the county should issue the bonds contemplated by the bill, the same would be sufficient nearly to defray the expense of building the road, and allowing the bonds to be payable at the earliest possible time, the county would have such amount of the nett proceeds of the road for seven years, as would fully provide for the payment of the bonds then to mature, and the county has in the meantime the guarantee of the company and the individuals composing the same. That during the time it appears to your committee, the bonds of the county will be fully provided for, and that no necessity would ever arise to levy one dollar of tax upon the inhabitants. The bill is so drawn as to guard the interests of the county most perfectly, and at the same time loan its credit for a laudable public object.

Your committee therefore report back the bill without amendment, recommend its passage and ask to be discharged.

The report was accepted and the committee discharged, and the bill referred to the committee of the whole and placed on the general order.

Mr. Chittenden gave notice of his intention to move a reconsideration of the last vote.

Mr. Strang sent up the following protest, which was ordered to be entered on the journal, to wit :

I protest against the passage of this bill for the following reasons :

1st. It provides new rules for the admissibility and competency of evidence, of the most dangerous kind.

2d. The provisions of the bill against the taking of appeals in the usual course of law, are equivalent to a denial of justice, at least in the case of poor defendants, who may be entirely innocent.

3d. The provisions for delegating the legislative power back to the people, is unauthorized by the constitution.

I regard the first objection insuperable, and the passage of the bill in its present form, dangerous to public liberty, and its tendency to break down all the barriers by which the law has surrounded the civil liberty and integrity of the upright citizen. It offers direct inducements to commit perjury on the one side, and shuts out competent evidence on the other.

During the time we wait for the vote of the people, the direct effect of this bill will be to flood the State with a deluge of intoxicating liquors, more cruel than a deluge of blood.

And as the Legislative power is not vested in the people at large, but in the Legislature, an act passed at a popular election will not thereby become a law, and the courts will overrule it.

Mr. Morton, from the committee of ways and means, submitted the following report:

The committee of ways and means report and recommend the passage of

A bill to amend act 142 of the session laws of 1851.

At present it is the duty of the board of State auditors to adjust and settle all claims and demands not otherwise provided for by law, which claims are in most cases of such character as to be better understood by the auditor general, and often they are claims which must be paid and need no action on the part of the board of auditors. The bill refers all such to the auditor general, who, in any event, is obliged to draw his warrant on the treasurer for their payment, even under the present law, whether he approves of them or not, and to the board of auditors leave such only as are provided for by law, or are referred to the board by the Legislature. This change will relieve the board and the auditor of much trouble and perplexity in disposing of demands against the State, and give to each such claims as appropriately belong to them for disposal, and will also relieve them from dealing, as they are obliged to now, upon a multitude of claims of very doubtful validity.

The report was accepted, the committee discharged, the bill read a first and second time, referred to committee of the whole and placed on the general order.

Whereas, It is alleged that House bill numbered 28, entitled a bill to provide for the incorporation of railroad companies, with manuscript amendments, has been surreptitiously taken from this House, and placed in the hands of interested parties, for the purpose as it is believed, of altering the same, and for other corrupt purposes, for the promotion of their own interest;

And Whereas, The taking of bills or papers from the possession of this House without its permission, is in violation of the rights of the members, and of the obligations imposed on the members and officers; therefore

Resolved, That a committee of three be appointed by the House, whose duty it shall be forthwith to examine and inquire into the facts above set forth, with power to send for persons and papers, and to report with all convenient speed.

REPORTS OF COMMITTEES.

Mr. Mitchell, from the committee on education, submitted the following report:

The committee on education have had under consideration,

A bill to amend sections 1 and 2 of an act authorizing the Commissioner of the State Land Office to sell certain primary school lands, and direct me to report the same back, and recommend its passage.

The committee have also had under consideration,

A bill to amend chapter 60, section 1, of the revised statutes, and the instructions therewith given, and respectfully report, that they have made what inquiry they could in the limited time allowed them in regard to the university lands as well as other school lands. That so far as they have been able to learn, there are some of the university lands not now worth the full sum of the minimum price now fixed by law, while others are worth more than that sum. They have not been able to obtain any information that would enable them to designate specifically what portions of said lands are worth less than twelve dollars. They are of the opinion, that the proposed reduction in the price of the said lands at this time, would work a manifest injury to the University Fund. They submit herewith a statement received from the office of the Commissioner of the State Land Office. Your committee are not instructed to make any further report in regard to the bill, and therefore report the same back and ask to be discharged from its further consideration.

Attempts have formerly been made to reduce the minimum of university lands to prices ranging from \$4 to \$8 per acre, by legislative enactment, which have failed, and much of the same land has been since sold at \$12 per acre. The constant improvements of other

lands in proximity to university lands, has a tendency to make them sought after.

Facts are constantly transpiring which induce the belief, if they do not demonstrate the certainty, that nearly all of these lands will sell at the price now fixed by law in from five to seven years. The price of such as remain unsold in five years might be reduced, if then thought advisable.

About 20,000 acres of these lands remain unsold, of which I have no doubt 15,000 acres will bring \$12 per acre; if then you reduce to \$9 per acre, you rob the fund of \$45,000 dollars; by far too large a sum to be lost to educational purposes in Michigan. Besides, every thing indicates more activity in real estate transactions for the future. The sales of the trust lands have this year opened on a large scale; \$10,000 worth of this variety of lands has been sold at this office in the last sixty days, and the sales of school lands in the same time have amounted to almost \$17,000.

The report was accepted, the committee discharged, and the bills severally referred to the committee of the whole.

Mr. Mitchell, also from the judiciary committee, reported

A bill to amend chapter 131 of title 24 of the revised statutes of 1846,

Recommended its passage, and asked to be discharged from its further consideration.

MESSAGES.

The following message was received from the Governor:

EXECUTIVE OFFICE,
Lansing, February 10, 1853 }

To the Senate and House of Representatives:

My attention has been particularly directed to an act recently passed, relating to the creation of corporations for mining purposes, &c. Some of its features are objectionable, and are worthy of your immediate consideration. Companies can be formed under it for manufacturing purposes, without any restrictions or limitations of

importance. Few of the ordinary guards are thrown around the law. I see no reasonable objection to the provisions relative to mining, &c., but the propriety of the power to form companies for manufacturing purposes, without any individual liability, or any of the ordinary restrictions, is very questionable. The State may be covered with them, and great danger is apprehended from it. The tax fixed by the act is comparatively small, and such distinction between companies and individuals cannot be approved. The measure, in my judgment, will have the effect of crippling individual enterprise. As this is the last day that bills can be introduced into either House, without unanimous consent, I urgently recommend the subject to your attention, and respectfully suggest the propriety of confining the act to corporations connected with mining, &c., in which the people of the Upper Peninsula are interested.

R. McCLELLAND.

The following message was then announced from the Governor:

EXECUTIVE OFFICE, }
Lansing, February 14, 1853. }

To the House of Representatives :

A bill has been presented for my signature to provide for draining certain swamp lands. It provides that all the lands situated in fractional townships fourteen north of range five, six and seven east, and townships thirteen, north of ranges five, six and seven east, also

township twelve north of range six east, which were donated to this State by an act of Congress, approved September 28th, 1850, may be drained; and for this purpose be granted to some company, *to be formed thereafter by persons now unknown*, under the general plank road law. The plank road is to run from Lower Saginaw to Tuscola. The company is authorized to enter upon any of the lands above described for the purpose of draining them and constructing a plank road. A commissioner is to be appointed to examine the land, and *certify to the drainage of the same, and is to be paid for his services by the company*. There is much ambiguity in the third section, and its meaning is not clearly defined. It provides that the commissioner "shall examine the said land, and *such portions thereof* as shall have been sufficiently drained for cultivation by said company, he shall certify to be so drained, and such certificate or certificates shall be filed in the office of the Secretary of State, and a duplicate thereof delivered to the president of said company; and *all other lands* described in the certificate of said commissioner, shall be held in trust by the Governor for the benefit of said plank road company. The president and directors of said company may make sale of *the lands so held by the Governor*, and he is required to issue his patent therefor, to such person or persons as the president of said company may direct.

This grant is made to a company having no existence, no security or any contract is required. It is permitted to take possession of the lands which they may strip of all its timber. May not a construction of the third section admit of a collusion between the commissioner and the company so as to enable the latter to dispose of many of the most valuable of the lands, and appropriate the proceeds to their own use, without expending a farthing for the accomplishment of the object designed by Congress?

The Secretary of the Interior has been frequently pressed without success, to consummate the grant. The act of Congress makes it his duty, as soon as practicable after its passage, to make out an accurate list and plat of the swamp and overflowed lands, and transmit the same to the Governor, and at the request of the Governor, cause a patent to be issued to the State therefor; *and on that patent*

the fee simple to the lands shall vest in the State subject to the disposal of the Legislature thereof. The Secretary of the Interior has positively refused to transmit a list or issue a patent for any of these lands, until the returns are made from all the federal land offices within the State. The land officers at the Saut have made no returns, and the State can receive no accurate or reliable information in relation to them, until this is done. No lists or plats having been transmitted, no patent has been issued. These lands according to the provisions of the act of Congress, are not yet subject to the disposal of the Legislature. Its action is therefore premature.

At present nothing is officially known of the quantity of these lands, their situation value or condition. Do you know the extent of the grant contained in the bill under consideration? Whether the lands are valuable or worthless? Whether they need to or can be drained, and how many lands there are in the townships designated? The quantity is variously estimated at from twenty-five thousand to two hundred thousand acres. I have given this subject heretofore some consideration, and made inquiry of the land officers here, and at Washington, and yet can form no reasonable conjecture upon these points. Is it wise then to legislate in the dark, without examination or proper information, and without any system being marked out or adopted?

The grant of Congress is magnificent. It is presumed to cover from three to four millions of acres of land, worth at least one million of dollars. I cannot but look upon this bill as an entering wedge to the resuscitation of an exploded system, which has deprived this State without any commensurate return, of the five hundred thousand acres of land heretofore granted by Congress. Does not wisdom and sound policy dictate a different course now?

In my message at the commencement of the session, I stated, as far as I was informed, the condition of this grant, and recommended that "the Commissioner of the State Land Office inquire into and ascertain, as near as may be, the condition of the lands, and report to the next Legislature some plan relative to the grant, and the accomplishment of its object." Further reflection has more fully convinced me of the propriety of this course.

I regret to be compelled, for the reasons assigned, to return the bill without my signature.

R. McCLELLAND.

The message having been read,

Mr. Ellsworth moved a reconsideration of the vote by which said bill was passed; but the House refused to reconsider, two-thirds of all the members elected not voting therefor, as follows:

Gentlemen of the House of Representatives:

The hour of adjournment is now at hand, and the last sad duty of the Chair is to dissolve the official relations that have united this body for the last forty days, and we to return to our homes and constituents.

It has been my endeavor to perform the duties as Speaker of this House, impartially, and without prejudice, and from the kindness and forbearance shown to me by each and all of you, I have reason to hope that I have in part, succeeded; if so, I am content.

We may have differed in opinion, but permit me, in all sincerity to say, that every feeling but that of kindness to you all, has vanished at its birth, and I feel assured in saying, we part as friends.

Whatever may be my lot in future, whether acting in a public capacity, or in private life, I shall recur to our past associations on this floor, with emotions of gratitude and pleasure.

Our session has been a business one, and of great labor; a large amount of business has been before us, and almost the entire has been finished.

To our Clerk, the members of this House as well as myself, are under great obligations, for his unwearied exertions in the discharge of the various duties of his important office, which I feel sure have been discharged in a manner satisfactory to you all.

Our Sergeant-at-Arms, Reporter, the Engrossing and Enrolling Clerk, and assistant Clerks, also our Fireman and Messengers all have performed their duty in a manner satisfactory to me, and I trust to the entire satisfaction of this House.

Now, gentlemen, in conclusion, may each of you have a pleasant journey to your homes, and there receive the applause of your friends and constituents for your industry and action upon this floor.

Permit me further to say, that you have my earnest wishes for your prosperity and happiness hereafter, and with no other feelings than those of kindness, I now bid you one and all an affectionate farewell.

The Speaker then announced that the hour of twelve o'clock meridian having arrived, at which time the adjournment had been previously agreed upon by the two Houses, he declared the House adjourned without day.
